

Dr
Alexander
Dennis

Dr Alexander Dennis is a rehabilitation medicine physician based at Forster and Mayo Private Hospitals. Dr Dennis has a special interest in the rehabilitation of neurological and orthopaedic conditions as well as reconditioning following medical illness, surgery and trauma.

Prior to becoming a doctor, Dr Dennis worked as a physiotherapist in rehabilitation. This gives him a unique position to approach his patients' care from a multidisciplinary perspective to achieve excellent patient outcomes.

He offers a range of rehabilitation services in the following areas:

- Neurological
- Spasticity management including ultrasound guided botulinum toxin injections
- Orthopaedics and trauma
- Reconditioning following medical illness or surgery
- Oncological reconditioning
- Cardiac and pulmonary rehabilitation
- Musculoskeletal conditions
- Spinal cord injuries
- Traumatic Brain Injuries
- Amputations including prosthetic prescription

Dr Dennis holds appointments at the University of Newcastle as a Conjoint Fellow and with Hunter New England Health as a staff specialist in rehabilitation medicine.

He accepts referrals for

- Mayo Private Hospital
